in the Kharkiv region

Scientific and Production Collection
of Papers Founded in 2003

ISSUE 16

KHARKIV 2014

As part of the innovative transformation of the agricultural sector of Ukraine national agricultural research plays a critical role. At present agricultural science is a recognized and effective factor in innovation and investment development both at the regional and national levels. In this respect, importance of coordination level and effective bringing valid information from developers to consumers is greatly increased. The Center for Science Provision of Agribusiness in the Kharkiv region is one of the most prominent centers in the system forming

innovative infrastructure in Ukraine, and the Bulletin of the Center for Science Provision of Agribusiness in the Kharkiv region is an efficient and powerful information resource.

Dynamics and statistics of requests for materials of the Bulletin of the Center for Science Provision of Agribusiness in the Kharkiv region indicate the current demand for science-intensive products both from the industry and from potential investors.

Today the Bulletin of the Center for Science Provision of Agribusiness in the Kharkiv region is rightly seen as an information resource in the agrarian field, which is noticeable on the territory of Ukraine and CIS.
